Army Leaders Agree on Armistice Terms

EQUAL TO UNCONDITIONAL
SURRENDER IF ACCEPTED

Provide for Evacuation of Alsace-Lorraine and Russian Poland, Taxation of All German Munition Plants, Surrender of the Submarine Fleet and Occupation of All German Battleships by Allied Naval Commanders. President Wilson Says Germany Must be Freed of Autocracy.

DISPOSITION OF KAISER ALSO FIGURES

(By United Press)

Washington, Oct. 24.—Marshal Foch, together with the American and allied army leaders, left by President Wilson to apply armistice terms, have agreed upon a course equal to German's unconditional surrender if accepted.

From an authoritative source it was learned today the terms are essentially as follows:

Evacuation of Alsace-Lorraine.

Evacuation of Russian Poland.

Taxation of all munition plants to be insured by commanders of allied forces, who will be installed in all German factories.

Surrender of the submarine fleet.

Occupation of all German battleships by allied naval officers.

The provisions of the armistice have been drafted to embody the foregoing points and to insure completely against any resumption of warfare by Germany either on land or sea.

Precautions were included to prevent Germany utilizing the armistice for manufacture of war materials with a view of continuing the war should peace negotiations fail. France and Belgium must be completely cleared of enemy troops.

In addition, there is a belief that some of the allied powers would demand that Von der Lancken, slayer of Edith Cavell, and other perpetrators of the more revolting atrocities, be held as hostages. The disposition of the kaiser would also figure in the arrangement.

Reply Approved by Allies.

Washington, Oct. 24.—President Wilson, in according to Germany's request that he transmit its plea for an armistice and peace to the allies, has informed Berlin that there can be no armistice that will leave a possibility of a renewal of hostilities by Germany, and that, then, unless the German people are assured of genuine constitutional standing as the real rulers, the United States must demand, not peace negotiations, but surrender.

The president's reply, which was handed to the Swiss charge last night just eleven hours after the official text of the German note was received, was forwarded to Berlin. It undoubtedly was framed in full accord with the allied governments, with whom the president had been in frequent consultation since Germany made its first proposal.

The decision of America's co-belligerents is awaited with scarcely less interest than is the effect of the note on the German people, who plainly are told that the United States can not discuss peace with those who hitherto have been masters of Germany's policy, because the nations of the world do not and can not trust them. If these military masters and monarchical autocrats must be dealt with now or in the future, the president said, the United States will not negotiate.

The full text of President Wilson's reply to Germany last night will be found on page five.

ANNOUNCE ARRIVAL
OF LOCAL SOLDIERS

Cards Arrive Today That Remove All Doubt Concerning Safety Of 139th Field Artillery.

WHOLE DIVISION LIKELY OVER

All doubt that the 139th Field Artillery, with which are the Rush county boys who left here a year ago last August with old Company B, has arrived safely overseas, was removed today when cards were received by many people in Rushville announcing the arrival of local soldiers in this regiment.

It was believed certain that the whole 139th regiment was safe on the other side when Mrs. Lowell M. Green received a message Tuesday evening from her husband, Lieut. Green, of the 139th sanitary detachment stating that he had reached England, which indicates that the whole regiment is at the same place.

Cards were received today announcing the arrival of the following who were formerly with Company B but are now in the 139th: Frank Nicholson, Battery A; Elmer Hendricks, Battery A; Lewis Perkins, Battery A; and Carl Peters, also of Battery A; Clarence Trenepohl, 7th Company, 152nd Infantry, and Sergt. Fred McCarty of the 113th. Military police, both in the 36th division, are also safely over, according to news received today. Cards also arrived announcing the arrival of Wilbur Spivey and Fred Osborne of the sanitary detachment.

NOW PRINCE MAX HAS IT

Copenhagen, Oct. 24.—Prince Max, the German chancellor, is ill with influenza, according to advices received here today.

LARGE ATTENDANCE ASKED

United War Work Conference Here Tomorrow Afternoon At 2:30

A large attendance of township chairmen and other workers of the county war activities body is wanted for the United War Work conference tomorrow afternoon at two-thirty o'clock in the sheriff's office of the court house, when Frank Donnell of Greensburg, and other district officers, will be present. Permission has been given by Dr. J. N. Hurty, secretary of the state board of health, for conferences of this character up to one hundred people. It is desired to start the campaign off here with plenty of enthusiasm.

DECREASE IN NEW
CASES NOTED TODAY

No Deaths Attributed to Influenza Make Situation Much Better Than It Has Been.

BAN LIKELY TO BE EXTENDED

Rushville Secures Services of Trained Nurse—Need of a Hospital is Emphasized.

Even though no deaths from Spanish influenza were reported today and though there was a decrease in the number of new cases, which made the situation appear much better, it was not believed that it would be possible to lift the ban on public meetings Saturday night, as originally intended when the state board of health orders were extended last week. Twenty new cases were reported yesterday, compared with an average of thirty a day for a week. The total number reported is 409.

It was announced in Indianapolis today that the state board, at its meeting tomorrow, would in all probability continue the ban in effect, but that a modification of the order respecting the public schools might be made.

"In communities where the disease is not widely prevalent," Dr. Hurty said, "the state board will consider whether schools may be opened under competent, daily medical and health supervision."

He declared that no further modification of the ban will be considered and that in no instance will schools be permitted to open where the malady is making inroads.

This means that the schools would in all probability not be opened here, because today is the first time there has been a slackening in the number of new cases reported. It is also the first day since Sunday that there has not been a death attributed to the epidemic.

Through a plan of co-operation between the state health board and the Indiana Red Cross regarding the assignment of nurses, the Rush county Red Cross has been provided with a registered nurse who will assist here for a few days.

In order that the nursing forces of Indianapolis and the rest of Indiana may be effectively pooled, Eugene Foster, representing the Marion County Red Cross, and Eugene Bulleit, representing the state Red Cross, will co-operate in the central clearing house for nurses.

Under the plans agreed upon the county representatives of the Red Cross and county health commissioners throughout the state will be instructed to confer and make a survey of the nurse situation in their respective counties. If it is found that there are available nurses not

ORDNANCE
OFFICERS
ALSO ACT

Write Rushville Furniture Co. They Are Investigating Efforts To Draw Workmen From Here

INNOCENT PARTIES TO DEAL

Declare That Facts Were Misrepresented To Them By The Connersville Furniture Co.

NO TROUBLE IN THE FUTURE

Not Expected Any Further Attempts Will Be Made To Conscript Employees Of Local Concerns

That an investigation, in addition, to the one already stated by the state council of defense, will be conducted by the production division of the United States ordnance department of this district, is promised the Rushville Furniture company, which complained to the Cincinnati office of the ordnance department about letters which were written to Rushville furniture workers, ordering them to report for duty at the Connersville furniture factory at once.

A letter signed by C. S. Haycock, production manager, and Lieutenant George W. Burus, head of the labor section of the ordnance department, production division, has been received by the Rushville company, in which these two officials declare that the facts were misrepresented to them by the Connersville company and that their efforts were urgently requested to get back employees, who formerly worked for the Connersville Furniture company.

The ordnance officials, who are the same ones that signed the letters which were received by local furniture workers, instructing them to report for duty with the Connersville Furniture company at once, stated in their letter to the Rushville company that they had taken the matter up with the Connersville company and gave assurance that the local concern will not be troubled with matters of this nature with this concern in the future.

This letter which was received, is as follows:

Yours of the 17th inst. received concerning the action of the Connersville Furniture company, in connection with your employees, Mr. _____ and Mr. _____

Beg to advise that we are now in receipt of information from which we feel that facts have been misrepresented to us by the Connersville furniture company, and that we were imposed upon. The men were represented to us as having been very recently employed by that company, and our efforts were urgently requested to get them back.

We have taken this matter up with the Connersville Furniture company, and assure you that you will not be troubled with matters of this nature with this concern in the future.

Similar orders were received by furniture workers at the Innis-Pearce and Park furniture factories to report for work at the Connersville furniture factory. Since the state council of defense has officially recognized the complaint of the local companies and since the ordnance officers, who were ap-

EXAMINATION TO BE HELD

Teachers Tests Will Be Conducted With No Violation Of Ban.

The county teachers examination will be held Saturday in the county house in spite of the ban on public gatherings because of the epidemic of Spanish influenza, according to an announcement by C. M. George, county superintendent, who says that if there are more than five who wish to take the examination, they be placed in different rooms. The superintendent makes this announcement because of the belief that the examination would not be held as previously arranged.

FACING DRIVE ON
CONSTANTINOPLE

Turks Must Surrender Unconditionally As Bulgaria Did Or This Will Be Result.

ALLIES ARE READY FOR PUSH

Turkey's Door To The Sea Is Already Seriously Threatened With Danube Under Fire

Washington, Oct. 24.—Turkey must surrender unconditionally or succumb to an allied drive on Constantinople.

Turkish agents in Switzerland are in touch with allied representatives, according to an authoritative diplomatic source here today. Unless the demand of complete surrender is complied with in short order, allied forces will move on Constantinople.

Greek and allied troops have prepared themselves for a big push across the Adrianople line. They are being held in readiness and are amply equipped for a hot fight. Occupation of Constantinople would be only a matter of days, it is stated.

"We expect definite developments from these negotiations within a few days," the United Press was told. "If the allies' conditions are not met with shortly we will move forward Constantinople. With the Danube now under allied fire, Turkey's sea door is seriously threatened."

Tewfik Pasha is holding out for guarantees that Turkey will be granted indefinite liberty in Asia Minor. The allies insist that Constantinople and Palestine be separated from Turkey, and this is proving also a bitter pill for Tewfik to swallow. He is apparently reconciled, however, to the loss of Greek islands in the Mediterranean.

Allied representatives will accept terms only equal to those imposed on Bulgaria, it is stated. Details of an armistice will be left to General Allenby and General d'Esperéy. Formation of a joint allied commission to supervise demobilization in Turkey and to assist in restoring order is being insisted on in allied quarters. Pillage and massacre would be likely if disgruntled and hungry Turk soldiers were turned loose on the country, diplomats say.

Greece, with the allies, will continue to make war on the Turks until they can impose a fate like that which came on Bulgaria, semi-official advices to the Greek legation stated.

The enthusiastic Greek troops are waiting for the order to continue their successful advance to stab the heart of the Turkish empire. One cable stated: "It described the valor of the Greek troops in Macedonia. Testimonials from various allied leaders lauding the fighting quality of Greek forces, have been received at the legation."

INITIATIVE
IS RESUMED
BY YANKEES

After Repulsing Series Of Heavy Counter Attacks, Americans Have Situation In Hand.

OCCUPY SEVERAL POSITIONS

Attack Is Resumed On Entire Front Between Sambre-Oise Canal And Scheldt River.

THREE VILLAGES ARE TAKEN

New Drive Is Expected To Have Wide Results—German Defense Is Stiffening

(By United Press.)

Rome, Oct. 24.—French and Italian troops in a powerful attack, penetrated far into the enemy line and captured the important peak of Mont Siselmol, three miles east of Asiago, the Italian war office announced today.

Nearly one thousand prisoners were taken.

Washington, Oct. 24.—Braving determined opposition, American troops have made substantial gains north of Verun, liberating two villages and capturing a number of prisoners Wednesday, Gen. Pershing reported today.

American airmen shot down fifteen enemy planes and one observation balloon.

With the American army in France, Oct. 24.—The Americans after repulsing a series of heavy counter attacks, have again assumed the initiative on the whole front between Grand Pre and the Meuse.

They have reoccupied several positions which were temporarily given to the Germans.

Two new enemy divisions have been thrown into the fighting and there are now more than thirty German divisions opposing the Americans on this front.

The first real sunshine in a week resulted Wednesday with fighting in the air. Big airplanes bombed the German rear areas.

Attack Is Resumed

London, Oct. 24.—The attack was resumed this morning on the entire front between the Sambre-Oise canal and the Scheldt, Field Marshal Haig announced.

Raismes forest, north of Valenciennes was cleared of the enemy and three villages were captured in that region. There was local fighting west of Tournai.

Local Gains Reported

Paris, Oct. 24.—Local gains on the Oise front between the Oise and Sambre and north of Rheims was reported by the French war office today.

May Turn Valenciennes Line

With the British Armies in France, Oct. 24.—The new drive between the Scheldt and the Sambre is expected to have wide results, most important of which will be the complete turning of the Valenciennes line.

On the front from Valenciennes northward to the frontier of Holland, German resistance is stiffening. British patrols have pushed across the Scheldt at several places north of Tournai.

Although the strongest opposition against the enemy withdrawal was

ARE URGED TO HOLD ON TO INSURANCE

Some Soldiers and Sailors Drop Their War Risk Insurance Because Relatives Complain

CERTIFICATES ARE DELAYED

There's Only One Genuine "Gets-It" That's "Gets-It"

Ever feel a banana? That's the way "Gets-It" feels off corns. It's the only corn treatment that will "Gets-It" is a guarantee that you

No More Excuse for Corns or Corn-Pain! You won't finally have to gouge, pick, jerk or cut out your corns. If you want the pleasure of getting rid of a corn, be sure to get "Gets-It." It is its wonderful formula that has made "Gets-It" the corn marvel that it is, used by more millions than any other corn treatment on earth. A few drops on any corn or callus, that's all. It can't stick. It is painless, eases pain. You can kick your "corny" feet around, even in tight shoes, and your corns won't bother you. You can go ahead and work, dance, live, love and laugh as though without corns. "Gets-It" the guaranteed, money-back, corn-remover, the only sure way, costs but a trifle at any drug store. Mfg. by E. Lawrence & Co., Chicago, Ill.

tense, the Indiana State Council of Defense today issued the following bulletin:

Some soldiers and sailors are dropping their War Risk Insurance because the relatives they named as beneficiaries have failed to receive insurance certificates from Washington.

Such action is entirely unwarranted and detrimental to the best interests of the fighting men and their loved ones.

Because of delay in receiving insurance certificates, many soldiers believe that they are paying for insurance protection which they are not receiving. This is incorrect. Government insurance is effective regardless of the receipt of the insurance certificates provided proper application has been made and premiums are being paid. The certificate is no part of the contract of insurance; it is merely evidence that the contract exists.

The Bureau of War Risk Insurance now has on its books more than thirty-five billion dollars of insurance, and is receiving approximately one billion dollars of new insurance every week.

It is unnecessary to write to Washington asking for your certificate. It will come in due course. You do not need the certificate to prove that you have taken out the insurance or to prove that you are the beneficiary named by a soldier or sailor.

Every officer and man in the military and naval service of the nation has the privilege and the opportunity of buying up to \$10,000 of Uncle Sam's insurance. This insurance is protection for him and for those that are dear to him—both for the present and for the future.

If you are the relative of a man with the colors, it is your duty to see to it that he avails himself of this Government protection, and that when he has obtained it, he holds on to it.

BUY THRIFT STAMPS

WATSON'S EFFORTS ARE APPRECIATED

Letter Carriers Approve His Position On Old Age And Retirement Legislation.

NO EXPENSE TO GOVERNMENT

Employees Must Pay To Government Two And One Half Percent Of Monthly Wages.

Washington, Oct. 24.—Senator James E. Watson has written a letter to the Association of Letter Carriers at Indianapolis, coming out flatly in favor of the McKeller Retirement bill for government employees.

The senator takes the position that letter carriers and other loyal employees who have for thirty years worked for the government should be granted some allowance during their old age. The Senator is particularly pleased with the provision of the bill which does not make the compensation feature of the measure a burden on the Treasury of the Government.

The McKeller bill provides that government employees who take advantage of this retirement privilege must pay to the government two and one half percent of their monthly wages. This will be a distinct advantage to the champions of this measure in getting its passage assured in the senate and in the house.

The measure will not be a burden on the government but will, during the first few years of its operation, establish a fund of several million dollars in the United States Treasury.

Senator Watson, being a member of the Senate Committee on Postoffice and Postroads, has given this measure earnest attention and he is receiving the thanks of the National Association of Letter-Carriers and other federal employees in Indiana for his friendly interest in the measure.

FRENCH POSTERS DISPLAYED

Sent Here By Harvey Allen And Shown In Postoffice Windows.

Samples of posters used in France for various patriotic undertakings have been sent to A. L. Gary by his brother-in-law, Harvey Allen, former local postal clerk who is in the postal service in France, and may be seen in the window at the postoffice. Robert E. Mansfield translated the words on the posters and a type-written copy is attached to each poster.

Store seed corn in dry, well-ventilated room. Cellars are too moist.

ONE AFTER EACH MEAL FOR A WEEK

You'll be surprised how good you will feel. Pepsinco cures stomach trouble; it regulates the bowels. It aids nature. Pepsinco is used by thousands every day, simply because it helps them.

In mild cases of stomach disorder a few doses are necessary. In severe cases Pepsinco is used with wonderful results.

Mr. C. says that he suffered 25 years and Pepsinco helped him to such an extent that he eats heartily and suffers no pain. You take Pepsinco and cure your stomach trouble.

All Drugists Sell It.

HALLOWE'EN MEAL BEEN PROPOSED

Gov. Goodrich, Michael E. Foley and H. E. Barnard, Give Cordial Endorsement

TO BE HELD ALL OVER STATE

In The Interest Of United War Work Campaign, Now Starting Throughout Country.

Governor James P. Goodrich, Michael E. Foley, Chairman State Council of Defense and H. E. Barnard, Food Administrator have given their cordial endorsement to a dinner to be given on Hallowe'en night, Thursday, Oct. 31. The local dinner will be put one of the many to be given throughout the state as the present plans call for celebrations, not only in each county seat but in every city and town of importance. The food consumed at these dinners must be confined to Indiana products exclusively and if each county can have a menu of its own, why so much the better. It is believed that for the local dinner plenty of home grown food can be found so that the bill will be composed exclusively of meats, vegetables, etc., that were produced in this county. These dinners will take the place of the regular evening meal and the dinners in order to save food must remember that it is unpatriotic to eat anything before the home grown dinner is served.

There was a time when young women, in celebrating Hallowe'en looked into their mirrors in the hope of seeing reflected there the likeness of their future husbands. Something of the same thought will be brought out in this Hallowe'en celebration. The people of Indiana will be asked to look into the mirror of the future and see the reflection of what is held in store for them in all parts of the state. It is to link the state's business and commercial interests closer together that gave rise to the Hallowe'en dinner idea. The movement is sponsored by the Indiana county largely by the commercial organizations. However, the co-operation of the county councils of defense and food administrators is sought because emphasis is to be placed upon war work and upon the necessity for a greater use of food that is produced at home.

The United War Work Campaign, now starting throughout the country, will be given impetus in Indiana at these dinners and the men who represent this united activity will speak at several gatherings. No money will be solicited or accepted at any of the dinners, but the following day a state-wide campaign will be conducted to secure new members for the Indiana State Chamber of Commerce, and about fifteen other state-wide organizations that comprise every form of organized business activity in Hoosierdom.

There are additional reasons for these get-together meetings, aside from the importance of featuring home products and giving the United War Work Campaign a good start. The additional reasons are found in the fact that the dinners are all patriotic in character and are all

will meet before a great while and it will be one of the most important sections in the history of the state. Each community is interested because it has its own problems and certain things seem paramount. Only by harmonious action and friendly co-operation can the desired results be obtained, for what is desired is legislation that will benefit all the people. Whenever the people are happy business is good.

Just now there is an immediate demand for action to combat the unequal and unjust freight rates that obtain for intra- and inter-state hauls. Higher freight rates mean higher retail charges. After all it is the consumer who pays the bill and for that reason the united protest of all the people will be sought against the present impossible rates.

DECREASE IS NOTED IN CASUALTY LIST

There Are Only Seven Hundred Names Reported From The War Department Today

SIXTEEN INDIANA MEN LISTED

Washington, Oct. 24.—In today's casualty list there is a decrease, only seven hundred names being reported from the war department of which, 87 were killed in action; 62 missing in action; 89 wounded slightly; 195 wounded severely; 40 died from wounds; 5 died from accidents and other causes; 45 died of disease; 173 wounded (degree undetermined); 4 prisoners.

The following sixteen Indiana men are reported by the Commanding General of the American Expeditionary Forces.

Killed in action—Private Clarence Hawkins, Huntingburg; Private Clement J. Osos, Michigan city.

Died from wounds—Private Omar Carl Hedeon, Indiana Harbor; Private Hobart G. Beach, New Albany.

Died from accidents and other causes—Private Howard Price, Terre Haute.

Wounded severely—Private Neil Long, South Bend; Private John William O'Conney, Cloverdale; Private Elmer Merritt, Clinton; Corp. Herman Jewell, Sullivan; Private Everett Annis, Francisco; Private Ernest Knox, Ladoga.

Wounded (degree undetermined)—Private Emil Walker, Carthage.

Wounded slightly—Private William H. Infange, Terre Haute; Private

NOSE CLOGGED FROM A COLD OR CATARRH

Apply Cream in Nostrils To Open Up Air Passages.

Ah! What relief! Your clogged nostrils open right up, the air passages of your head are clear and you can breathe freely. No more yawning, sniffling, mucous discharge, headache, dizziness, struggling for breath at night, your cold or catarrh is gone.

Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's fast and splendid.

RED BLOODED MEN WIN OUT

They Are Always on Top In Every Walk of Life

It is a fact that red blooded men and women are the top of the heap in every walk of life. Men and women with the driving force of red blood, rich in Iron and Phosphates do things, they get results.

Red blooded women are the heads of the household and most contented homes, they have the will and the desire to be real companions and helpmates.

Leadership and happiness is only for the men and women who are willing to keep their blood and nerves strengthened and nourished with Iron and Phosphates.

A prominent doctor says, "It is a crime that so many men and women lack the rich, red blood and strong steady nerve to achieve their ambitions. It is all the more so because thin, watery blood is unnecessary, as rich, red blood and strong nerves are within the grasp of everyone. Phosphated Iron makes pure blood by making new blood. It gives strength, brings color to the cheeks, increases the weight and appetite, drives away the blues and those sleepless nights, steadies and renews your nervous energy, makes you feel like a live one once again."

There must be something to it. Everyone who tries it is loud in praise of Phosphated Iron, and you have got to see people these days.

To insure physicians and their patients receiving the genuine Phosphated Iron it has been put up in capsules only. Do not allow dealers to give you pills or tablets. Insist on capsules.

Fittman & Wilson, Druggists, and leading Druggists everywhere.

Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is. One will only adopt the morning ritual bath. People who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

Dr. H. B. Metcalf, who has been ill at his home for the past several days, will be able to resume his duties Saturday morning.

Mrs. James Casady entertained at her home in Brookside yesterday in honor of her mother, Mrs. Allan Beckner of Anderson, who is visiting here. The guests included Mrs. Sarah A. Casady, Mrs. Tabatha Casady and Mrs. Elizabeth Pearsey.

Word has been received here that James Wooster, formerly owner of the city restaurant, is critically ill with pneumonia, following an attack of Spanish influenza, at a hospital in Dayton, O. All hopes for his recovery have been abandoned. He has been employed in an airplane factory at Dayton.

Red Cross Notes

The Red Cross headquarters has received an allotment of sweater yarn which will be given out Wednesday and Saturday afternoons to the women, who will promise to return sweaters within thirty days.

DECREASE IN NEW CASES NOTED TODAY

Continued from Page One

absolutely needed in the county the health commissioner, after receiving advice from his local health officers, will inform the county Red Cross office of the fact. Thus the state Red Cross office will be advised of the nurses available. All calls for nurses will be received by the state office of the health board. These calls will be turned over to the state Red Cross office, which will endeavor to forward immediately the nurses needed.

The Red Cross relief announced today that it had secured the services of Miss Maude Hunt, formerly of this city, a trained nurse, who has been working in Indianapolis during the epidemic and she will be available for a few days to assist in the emergency, due to the epidemic of Spanish influenza here in Rushville.

The committee now has available Mrs. Henry Flodder and the visiting nurse, Mrs. Edna Riggs, to assist in the homes where there is actual need of help. Person, who know of cases where there is absolute distress and where aid is urgently needed, are requested to call on Riggs, phone 1627 and he will attempt to send them help. Mr. Riggs would also like information regarding homes with patients, where it is difficult to prepare food. The relief committee has an organization through which it can provide meals and take them to people who are in distress.

The girls motor corps has been organized and is valiantly working to take food wherever it is needed and to haul the nurses in making their visits. The nurses are so scarce that it is impossible for the committee to assign them to any home for any period of time. They can only call for a short time, doing a few essential things necessary in the care of the patients and instructing those who are in charge. It is requested that the nurses not be called only in case of great necessity because they are very busy.

The need of a public hospital in Rushville was further emphasized last night when a troop train stopped here with the intention of leaving a soldier, who was suffering with the influenza. When the commander of the train learned that there was no hospital here he would not permit the soldier to be taken off the train, because he did not believe proper care could be given outside of a hospital. The soldier had a high temperature and was seriously ill. The commander of the train found that it would be impossible to put him in a hospital before they reached Springfield, Ohio, as the train did not go through Anderson but was transferred to another railroad at Shirley. The local relief committee made arrangements to care for the soldier at the Grand Hotel, but even then the commander would not allow him to be taken from the train.

Personal Points

—Miss Leah Flint was a visitor to Indianapolis this morning.

—Will Inlow went to Indianapolis, this afternoon on business.

—Bryce Stoops was the guest of friends in Connersville Tuesday.

—John A. Titworthli transacted business in Indianapolis, this afternoon.

—Everett Oakley was the guest of friends in Connersville Tuesday evening.

—Mrs. S. S. Flenner of Hamilton, Ohio, is here as the guest of Miss Helen Scudder.

—Mrs. J. C. McCormick of Crawfordsville, is here as the guest of R. F. Scudder and daughter Miss Helen.

—Cyril Caron, John K. Tompkins, Howard Stiers and Nick Tompkins, motored to Cincinnati this morning and will attend the Latona races.

—Mr. and Mrs. Fred Porter of Shelbyville, motored to this city yesterday afternoon and spent a few hours as the guests of Miss Helen Scudder.

—Mrs. W. C. Wolfe has returned to her home in Richmond, Indiana, after spending the week-end in this city as the guest of Mrs. Wilber V. Brown in West Ninth street.

—Mr. and Mrs. Will Dickerson and daughter Jone of Goshen, N. Y., and Miss Kate and Dora Dickerson of Greensburg motored to this city Tuesday evening and were the guests of friends.

—Miss Katherine Hitt, who is employed in Indianapolis, came home Tuesday night sick with the influenza and is at the home of her parents, Mr. and Mrs. William Hitt, living south of the city.

—John Flicklin of Waldron is here at the bedside of his son, James Flicklin, who is seriously ill with influenza, but is improving. Mr. Flicklin's wife died of the disease Tuesday evening.

—Miss Ethel Roller has returned to her position at Linton, after being called home on account of the illness of her mother, Mrs. George Roller, who is now recovering from the Spanish influenza.

—Mr. and Mrs. William Green, formerly of this city, but now of Greensburg, were here today enroute to Morristown for a visit with her parents, Mr. and Mrs. John Rerrell, formerly of this county. Mr. Green was recently Western Union agent here.

The National City Bank in Wall street, New York, has employed 500 women since the United States entered the war.

ORDNANCE OFFICERS ALSO ACT

WARNING NOT TO GLUT MARKET WITH POULTRY

Warning against the possible adverse effects of glutting the market with poultry intended for cold storage, through the county federal food administrators. A statement declaring the situation to be "very serious" has been sent out by Dr. Harry E. Barnard, federal food administrator, who asks his assistants in every community in the state to prevent a condition that later may mean disaster.

It is set forth that ordinarily during the next three months probably 50% of the poultry is so limited, it is said, that there is grave danger of an unfavorable reaction on the market. It is urged, therefore, that poultry be kept in the country, as long as possible, and that only mature birds be marketed. The crop is said to be unusually large.

For the guidance of patriotic farmers, and in their own interest the federal food administrator recommends the observance of the following program:

1. Market only the well-matured birds, leaving the others on the farm to grow and increase the amount of poultry flesh.
2. From now until December 1, the larger percentage of old hens are moulting, are unattractive in appearance, and weigh less than at other seasons. You should market only those birds that are full-feathered — holding the balance until after December 1.
3. Whenever practicable, hold as many birds as possible on the farm until after January 1, in order to relieve the freezer situation.
4. Keep all pullets for egg production this winter and next spring.
5. East of the Mississippi river, market turkeys that are intended for Thanksgiving from November 10 to November 16; west of the Mississippi, from November 8 to November 14. Hold the remainder until December 7, as usually a large percentage of the turkeys reaching market too late for Thanksgiving must be placed in cold storage, which this year is unavailable for the reasons above stated.

Red Cross And Disabled Soldier

What is the Red Cross part in the big national program for the reconstruction of disabled soldiers and sailors? With large casualty lists reported daily and many disabled men now returning from the European fronts, the question is being asked on all sides by interested Americans.

A new Red Cross circular of instruction, entitled "Home Service and the Disabled Soldier and Sailor", summarizes the Red Cross relationship to the rehabilitation program as follows:

To bring solidly behind the disabled man, at all stages of the reconstruction process, the moral support of his family.

To assist the men, through the competent legal advice at the command of chapter Home Service Sections, to secure the benefits of the War Risk Insurance Law and especially the provisions for compensation and insurance.

To urge upon disabled men the wisdom and necessity of taking full advantage of the government's plans for their care and training.

To encourage them in the early and critical stages of their vocational training and of their return to employment, when the struggle to overcome the mental and physical

(Advertisement.)

handicap is most acute.

To bring about a reasonable and sympathetic attitude on the part of employers, which shall give every handicapped man a real chance, while avoiding the danger of tempting him to forego the necessary training for the attraction of an immediate, temporary or perhaps unsuitable job.

To mold public opinion so that it will frown trivial and demoralizing entertainment and hero-worship, and maintain a constructive attitude which, while maintaining a square deal for the returned soldier, shall expect from him every reasonable effort to insure his self-support.

To supply information, encouragement, legal, medical and business advice, when acceptable and necessary, just as is now being done for the families of men at the front.

A pretentious program, it is true, especially when it is taken into consideration that, on the basis of Canada's experience, 100,000 of each 1,000,000 men will come back each year permanently incapacitated for military duty.

But the American Red Cross, with its great financial resources, its 22,000,000 members, its 3,900 chapters and their 15,000 branches is better equipped than any other private organization to give aid and comfort to our soldiers and sailors and to assist their families at home. It approaches the position of a "committee of the whole of the American people."

And it will be noted from the above that the Red Cross is purely an auxiliary factor, recognizing that the medical departments of the Army and Navy are wholly responsible for the physical and mental reconstruction and that the total responsibility, by act of congress, for the civil reestablishment rests entirely upon the Federal Board for Vocational Education.

If the Home Service work now being done by chapters for the relatives of fighting men may be accepted as a criterion of what may be expected from the Red Cross in the reconstruction of the disabled soldier,

"Selective Service" In Kitchens

Make "Selective Service" the watchword for the kitchen. This is the message in a bulletin "Suitable War Time Desserts", just off the press from the Home Economics Division of the Purdue Extension Department. With the many wholesome vegetables being taken from the garden and the great quantity already canned, the bulletin points out there is ample opportunity to save the foods which the government asks.

"To many people feel that the dessert is a luxury and not a part of the meal", reads the bulletin. The meal should be so planned that if the vegetable course is heavy, the dessert should be light. If at luncheon, a soup or salad is served, the dessert should be heavier to balance the meal.

With the rationing in sugar and the scarcity of meats, the ingenuity of the housekeeper is sometimes overtaxed. In order that assistance may be given this new bulletin has been prepared. Recipes are given in which sorghum, other syrups and honey are used instead of sugar.

Fuel saving in connection with preparation of desserts is also emphasized. When an oven dinner is being prepared, the same heat will cook a dessert for another meal or the heat from the top of the stove may be utilized for a dessert to be used later, thus making the same fire serve two purposes, saving fuel and energy, two vital factors in the "Win the War" program.

Chancellor Maximilian says: "The German people have been in the saddle for years and now they are going to ride. Can it be possible that Potemkin is going to try to saddle all of its crimes off on the German people?"

If the German peace offensive is for the purpose of weakening the morale of the home front, it has failed of its purpose, as the large oversubscription to the Fourth Liberty Loan will testify.

Rush county's prompt response to the call for \$44,000 as its share of the fund for the seven war relief organizations to continue their work of spreading cheer among our soldiers at home and abroad, will be another way of letting the Germans know that we have no thought of stopping simply because the German government wants peace when the allied bayonets are within jabbing distance of the Hun border.

Germany has proven herself super-efficient in one way at least. She has incurred the enmity of the whole civilized world.

The optimist is happy because he has sugar and gasoline to give to the cause.

The camp libraries maintained by the American Library Association at all the big training camps are very popular. At Camp Greene, for instance there were 320 men in the library at 7 p. m. on a recent evening looking for books, and at one time there were 57 men sitting on the floor reading because there were not enough chairs to go around.

QUESTIONNAIRES TO BE SENT

War Contracts Will Be Placed In
Such A Manner As To Stabilize
Industries

The publicity bureau of the Indiana State Council of Defense is authorized by the United States Employment Service, at Washington, to make public the following announcement:

The new government survey board made up of representatives of all governmental departments having contract construction, housing or production problems in hand that require labor, housing, power, fuel, materials or transportation, is putting up to the community labor boards throughout the country the problem of making a survey and report on local conditions on which the War Industries Board and the Labor Department can urge the proper distribution when ordered, and in making them the community labor board will co-operate with the regional advisers of the War Industries Board and in certain cases with representatives of other departments. Production survey questionnaire which will be officially distributed and must be filled out when a particular survey is ordered. These will give the necessary information both by industries and by communities. These surveys are authorized by the War Industries Board, the Emergency Fleet Corporation, the Railroad Administration, the Food Administration, War Navy Housing Corporation and the Department of Labor for the purpose of enabling all procurement departments through the War Industries Board to place war contracts in such a manner as to stabilize industries and prevent the unnecessary transportation and movement of labor. This survey should benefit every city in your state and this action by the government should have the widest possible support. It certainly strengthens the position of the various communities and at the same time increases the power of the community board in its own city. In addition, community labor boards must make a monthly report of labor conditions and supply so that the War Industries Board and the Department of Labor may keep up to date.

The following telegram sent by Edward N. Hurley has been sent to all shipyards. It is offered in evidence of the fact that the whole effort of the government is being turned toward keeping up the fighting spirit and that peace talk is dangerous; "No ship-worker will make the error of thinking for a moment that the war is nearly over. America has just begun to fight. In the coming months our long preparation on the battle line and in the shipyards will yield results. Shipworkers know the need for continued record breaking. Every ton of shipping delivered now is needed to carry our boys to France. Every ton launched now means force to the utmost to really win the war next Spring. Don't go by the war map. That still needs a lot of changing and the enemy still needs a lot of licking. Tonnage will win the war and bring permanent peace."

Don't Forget Gum
IN YANK'S COMFORT KIT
(By United Press.)
An American Hospital In France, Sept. 13. (By Mail)—When you are making up comfort kits for soldiers at the front, have you often wondered just what is the most needed and what is extra among the doughboy's "finds" in the bag?
Here is what they have found most essential and useful:
A safety razor, shaving brush and soap, tooth brush and paste, chewing gum, playing cards, package of cigarettes, and a can of tobacco. Towel, wash rag, soap, hard candy or chocolate.
Asked what he thought most important, a doctor here replied: "Chewing gum." Often patients cannot sleep, especially at night.

HELMETS MARK OUR
SOLDIER'S GRAVES

(By United Press.)

With the American Army in France, Sept. 12. (By Mail)—By their helmets you shall know their graves.

It's the case over the battlefield that stretches north from the Marne over rolling hills covered with grain fields and woods.

As the German forces retired they left many dead behind. American troops following buried these Germans where they fell at the first opportunity. Usually the graves are marked with nothing but a German helmet on the fresh mound of earth.

Sometimes a stick is erected, or a cross, depending on the intensity of artillery fire in the region, and the time at the disposal of the "moppers-up." Sometimes the German helmet is on top of the cross. Once on the grave, the helmets are untouched.

The American dead were buried in groups farther back when possible. Sometimes this couldn't be done. Then a silent group of doughboys buried their fallen by the roadside.

These, too, are recognized by the helmets on the fresh earth mounds, with crosses at the head, and usually a bottle stuck in the earth into which data regarding the fallen fighter was hastily scribbled and placed by his comrades. Some day it can be gathered and information forwarded to his folks.

HUN FOOLED YANKEE
WITH PLANE AND GUN

(By United Press.)

New York, Oct. 2.—Lieut. W. D. Hill, Cleburne, Tex., is convalescing in a military hospital here from effects of German camouflage.

While flying at an altitude of about 10,000 feet over the German lines, north of Toul, Hill saw what looked like a boche monoplane beneath him. Monoplanes have a single gun, rigidly set to shoot straight

forward between the propeller blades.

Hill dived at the plane. Just as he opened up with his machine gun a machine gun operated by a man in the fuselage of the enemy machine cut loose. The Yankee received several bullets through the leg and his engine was shot out of commission. He fell about 6,000 feet, then managed to straighten out and streak for home.

The "monoplane" had proved to be a biplane, cleverly camouflaged.

Hill rapidly losing consciousness, finally saw an American shack, marked with a Red Cross. He brought his machine to earth and tumbled out at the door of the shack. It was a dental hospital, but the dentist proved to be a good emergency surgeon and saved Hill from bleeding to death.

Hill expects to be back at the front in about three months.

Store your seed corn indoors so that no two ears touch.

FORGET YOUR
RHEUMATISMNot Necessary to Have Your
Troubles With You Any Longer.Don't suffer when you can get
"Neutrone Prescription 99."

Rheumatism, one of the most common ailments is one of the hardest to cure, because of its being a blood disease. Any remedy to be effective must purify the blood and kidneys, common sense teaches you this.

That is why "Neutrone Prescription 99" is so successful, it is a combination of blood purifying agents prepared from the prescription of a specialist.

It relieves those sore, inflamed joints and muscles. "It puts out the fire." It does all these things, restores your health, makes you happy and free from pain.

Go to your druggist today and get a 50c or \$1.00 bottle, then say goodbye Rheumatism. Mail orders filled on \$1.00 size.

Pitman & Wilson and Leading Druggists Everywhere.

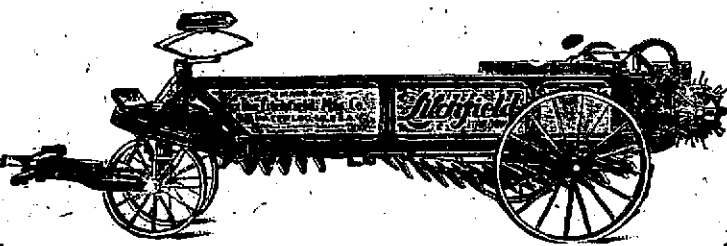

PIGS GET WORMS
VERY YOUNG

The time to commence feeding ACME WORM BOUNCER is from the time they are old enough to eat. Feed from birth to maturity. It will only take a few cents worth to do it, and as "an ounce of prevention is worth a pound of cure," it certainly pays to start the pig off right, and if you do so you can keep him right. Worms are persistent pests and they must be fought continuously. There is more money in keeping your pigs free of worms than to let them get worms and even expel them.

Assemblers vs. Manufacturers.

A FACTORY is a place where things are MADE. Some so-called factories are merely assembling plants where they put together, what other real factories build.

The factories where the "RUSHVILLE SPECIAL" Spreaders are built produce these machines direct from the raw material. Every part and piece going into these machines with one exception, the steel chain, is made from the raw material in the Litchfield Factories. Pig-iron, steel, raw lumber—these are the things that go into the Litchfield Factories and the completed machine comes out.

Our customers will be surprised to find how many "factories" depend on other factories to produce many of the parts and pieces that go into the machines they produce. The Litchfield Factories make their own steel castings, their own steel wheels, their own bolts, their own seat springs, their own rolled rolled shafting. In fact everything in this spreader is under the direct building control of the Litchfield Organization and this means a KNOWN quality such as it would be absolutely impossible to produce if the machine were built in a half dozen different plants and assembled in another one.

This is one of the important reasons why this machine can be sold under the liberal guarantee which we place behind it. Come and see it.

RUSHVILLE, INDIANA

BELIEVES WAR WILL BE OVER VERY SOON

Private Wilmer S. Hall Hears in France That it Will be Over Thanksgiving.

MARVELS AT THE COUNTRY

Declares it is Wonderful How French Women Have Farmed With Equipment They Had.

Private Wilmer S. Hall, 142nd headquarters company, Field Artillery, believes that the war will be over very soon, judging from what he hears in the training camp be-

hind the lines in France where he is stationed, according to letters which have been received by his parents, Mr. and Mrs. R. J. Hall. Excerpts from his letter tell something of the impression which France has made on him: It is going to be very hard to write very much for there is so much that we are not allowed to write about now, but we will be able to tell you all about it when we get home and from what we can hear, that won't be very long. They say that it will be over by Thanksgiving, so if that is the case, we will never see the front.

Well, I wish that you all could be over here and see this country. It is all cut up in very small patches with either stone or dirt piled up, with hedges planted on top of them. Most of the vines are blackberries, and talk about blackberries, we have sure eaten all that we could hold. All that we lack is sugar and cream with them.

One can't look any direction without seeing a village on the hills around as far as one can see. One don't see very many frame buildings. Nearly all of them are rough stone and a few of them are brick. Most of them are very old, some dating back to the days of ancient history. One could not tell that this country was at war if it was not for seeing nothing but old men and cripples. It certainly is wonderful how well the women have farmed with what they have had to work with. Some of them still use oxen, while others have horses. There are several good horses in this country.

What kind of weather are you having back there? We have had nice weather most of the time. There has been considerable rain since we have been over here.

We just arrived at this camp yesterday which will be our training camp while we are here. I have not been around any, so I don't know how it looks. Just ducked around the corner and went to Mass this morning. The services were held in the Y. M. C. A. building.

CITATIONS ARE SENT HOME

Bloomington, Ind., Oct. 24.—Several Bloomington boys have sent home copies of the citation received by them as members of the Forty-second Division (Rainbow Division) for gallantry in France. The citations were signed by Maj. Gen. Menoher of the United States forces in France.

WANT ADS BRING RESULTS

TRIED MANY, FOUND THE BEST

Good digestion is the foundation of good health. Foley Cathartic Tablets keep the bowels regular, sweeten the stomach and tone up the liver. There is nothing better if one desires an old-fashioned, harmless physic—gentle in action, yet thoroughly cleansing in effect. J. P. Gaston, Newark, Ind., says he used a great many kinds of cathartics, but Foley Cathartic Tablets gave him more satisfaction than any other. He says they are the best cathartic tablets made. F. B. Johnson.—Adv.

NEGRO SOLDIERS ARE MAKING GOOD

They Already Have Reputation in Europe Of Being Cool And Reliable Fighters

MAKE HIT WITH THE FRENCH

Unit Of Colored Chaps From Chicago Or Thereabouts Stop Huns in Argonne Forest.

(By United Press.) With The American Armies In France, Oct. 3. (By Mail.)—Colored troops from America already have established themselves in Europe as being cool and reliable fighters in the front line. Both American and French commands say so, and if the Germans ever discovered who it was that held part of the line through Argonne Forest when the boches failed to get through some time ago, the German command has decidedly high respect for American colored infantry.

Up and down the line, after the test of a year's service, you hear no doubts expressed regarding the colored infantry. The darkie doughboys have made good in the line as well as behind. They have proven themselves cool and brave soldiers in the trenches, and gentlemen when back at rest in French towns. You are continually running into units of these colored chaps as you travel up and down the line from Switzerland to Flanders.

Down in a little town some miles back of Verdun the United Press correspondent encountered a large unit of these colored chaps, all from Chicago or thereabouts. They had just come back to rest, after a long period in the Argonne Forest trench-unit from New York, they had made a great hit with the French officers in high command of the sector. Unlike the New York negroes, these Chicago boys had encountered no big fighting, and they were disappointed at being taken from the trenches before doing big fighting.

The French officers explained that good soldiers can be recognized just as well when they are holding the line as when they are fighting, but the darkie doughboys were still disappointed. Finally the French general of the army came down to review the negro outfit. Down by the creek they went through some of the snappiest exercise ever seen, and the French general was delighted. When the review as it had been planned was finished the general turned to the American colonel.

"If I were an American general, what would I do now?" asked the Frenchman.

"Most anything," replied the colonel. These boys will do anything you wish."

"Well, suppose the Germans were across the creek," replied the general. "I'd like to have this nearest company attack them."

The captain of the nearest company was given the order, and he

FULL TEXT OF PRESIDENT'S REPLY TO THE GERMAN NOTE

Washington, Oct. 24.—Following is the text of President Wilson's reply to Germany, made public last night:

The secretary of state makes public the following:

"From the secretary of state to the charge d'affaires ad interim in charge of German interests in the United States:

"Department of State, Oct. 23, 1918.

"Sir: I have the honor to acknowledge the receipt of your note of the 22d transmitting a communication under date of the 20th from the German government and to advise you that the President has instructed me to reply thereto as follows:

"Having received the solemn and explicit assurance of the German government that it unreservedly accepts the terms of peace laid down in his address to the Congress of the United States on the 8th of January, 1918, and the principles of settlement enunciated in his subsequent addresses, particularly the address of the 27th of September, and that it desires to discuss the details of their application, and that this wish and purpose emanated, not from those who have hitherto dictated German policy and conducted the present war on Germany's behalf, but from ministers who speak for the majority of the Reichstag and for an overwhelming majority of the German people, and having received also the explicit promises of the present German government that the humane rules of civilized warfare will be observed both on land and sea by the German armed forces, the President of the United States feels that he cannot decline to take up with the governments with which the government of the United States is associated the question of an armistice.

ONLY POSSIBLE CONDITIONS FOR ARMISTICE.

"He deems it his duty to say again, however, that the only armistice he would feel justified in submitting for the consideration would be one which should leave the United States and the powers associated with her in a position to enforce any arrangements that may be entered into and to make a renewal of hostilities on the part of Germany impossible. The President has, therefore, transmitted his correspondence with the present German authorities to the governments with which the government of the United States is associated as a belligerent, with the suggestion that, if these governments are disposed to effect peace upon the terms and principles indicated, their military advisers and the military advisers of the United States be asked to submit to the governments associated against Germany the necessary terms of such an armistice as will fully protect the interests of the peoples involved and insure to the associated governments the unrestricted power to safeguard and enforce the details of the peace to which the German government has agreed, provided they deem such an armistice possible from the military point of view. Should such terms of armistice be suggested their acceptance by Germany will afford the best concrete evidence of her unequivocal acceptance of the terms and principles of peace from which the whole action proceeds.

PRUSSIAN MASTERS CAN NOT BE TRUSTED.

"The President would deem himself lacking in candor did he not point out in the frankest possible terms the reason why extraordinary safeguards must be demanded. Significant and important as the constitutional changes seem to be which are spoken of by the German foreign secretary in his note of the 20th of October, it does not appear that the principle of a government responsible to the German people has yet been fully worked out or that any guarantees either exist or are in contemplation that the alterations of principle and of practice now partially agreed upon will be permanent. Moreover, it does not appear that the heart of the present difficulty has been reached. It may be that future wars have been brought under the control of the German people, but the present war has not been; and it is with the present war that we are dealing. It is evident that the German people have no means of commanding the acquiescence of the military authorities of the empire in the popular will; that the power of the King of Prussia to control the policy of the empire is unimpaired; that the determining initiative still remains with those who have hitherto been the masters of Germany. Feeling that the whole peace of the world depends now on plain speaking and straightforward action, the President deems it his duty to say, without any attempt to soften what may seem harsh words, that the nations of the world do not and can not trust the word of those who have hitherto been the masters of German policy, and to point out once more that in concluding peace and attempting to undo the infinite injuries and injustices of this war, the government of the United States can not deal with any but veritable representatives of the German people who have been assured of a genuine constitutional standing as the real rulers of Germany. If it must deal with the military masters and the monarchical autocrats of Germany now, or if it is likely to have to deal with them later, in regard to the international obligations of the German empire, it must demand, not peace negotiations, but surrender. Nothing can be gained by leaving this essential thing unsaid.

"Accept, sir, the renewed assurance of my high consideration.

(Signed) ROBERT LANSING.

"Mr. Frederick Oederlin.

"Charge D'Affaires of Switzerland, ad interim.

"In charge of German interests in the United States."

marched his men across the meadow, where they suddenly disappeared. Pretty soon a whistle sounded, and the company was up and running toward the creek. Only a minute, and then they dropped, waiting, then running, always skirmishing in the latest approved French fashion. When they dropped it was with two skirmish lines in advance and two support lines leading off to the rear, with each man dropping over the logs of the chap in front of him. Tin derbies and packs covered the upper portions of their bodies.

After a bit of flank movement by a couple platoons, the supposed German positions along the creek were stormed and taken. The French general was delighted beyond words for a moment. Finally he said, "My oldest veterans could do it no better, even if they were warned it was on the program, and your boys, did that extemporaneously." The general remembered the review, and a few days

later these colored chaps from Chicago received a fine letter from him, congratulating them on their spirit de corps and their work.

It was interesting to see how these colored boys mixed with the French inhabitants of the village, with whom the Americans were billeted. The French folk like the colored boys, and felt highly honored at the way the latter learned French. The darkies are getting extremely fluent, and it fits entirely with their scheme of things to use all French forms of politeness.

Down the battle line a large unit of colored troops was encountered at serious business. It was going into the line, taking over a hilly and important sector formerly held by French troops. It was the first taste of the trenches, or of the front for the boys in this unit. These men were mostly from the South. They had been trained in the middle west, and some more in France, but never had been on duty under shell fire.

Yet on this dark night, while the Germans bombarded, these thousands of darkie doughboys, chiefly under direction of colored officers, though some were white, took over a difficult and long sector without a mishap and with less noise than usual, so the French officers said. They have held that long sector for some time now, and there has been no alarm from the farthest outpost to the rear supply line.

COUGHED FIFTEEN YEARS

Coughs that hang on and grow worse in the night and weaken the sufferer are relieved by Foley's Honey and Tar often more than by any other remedy. R. F. Hall, Mabe, Va., writes: "For 15 years I was afflicted with a troublesome bronchial cough and irritation of the throat. Foley's Honey and Tar relieved me; after taking one bottle the cough ceased and has not returned." No medicine stands higher in a family remedy for colds, coughs, and asthma.

Stop Itching Eczema

Never mind how often you have tried and failed, you can stop itching eczema quickly by applying a little Eczema Cream by day and night. Eczema Cream is a large bottle, 61.00. Eczema Cream is usually every trace of eczema, better, pimples, rash, blackheads and similar skin diseases will be removed.

For clearing the skin and making it vigorously healthy, always use Eczema Cream. Eczema Cream is a penetrating, antiseptic liquid. It is not a greasy salve and it does not stain. When others fail it is the one dependable treatment for skin troubles of all kinds. The E. W. Ross Co., Cleveland, O.

SHORTAGE NOTED IN POTATO CROP

Less Than 90 Percent as Many Potatoes as There Were Last Year

ACCORDING TO OCT. ESTIMATE

With Prices High Farmers Tempted to Sell Stock and Get Seed at Planting Time

The October first crop reports from the Department of Agriculture, at Washington, show that there will be a very much shorter supply of potatoes this year than last. There is less than 90 per cent of as many potatoes in the country as there were last year. There is less than 85 per cent of the potatoes in Indiana that were produced last year, according to the October estimate, and the reports from growers indicate that the percentage will be materially reduced by the time the crop is dug.

Prices are high and every indication leads to the belief that potatoes will not go very much lower. Growers are tempted to sell all of their stock and attempt to get their seed at planting time. Good potato seed will, in all probability, be scarce next spring and the wise producer will make sure of his supply from his own crop, or the crops of his neighbors, at digging time.

If any grower has practiced selecting his own seed in the past he should, by all means, save his own seed this year. If he has not practiced seed selection with his potato crop it will pay him to select his seed from the field while digging. Immature tubers, if properly cured and stored, will make good seed if they are from productive strains. Hills of potatoes which yield a large number of medium tubers with a few or not, small tubers make the best seed. Selecting large tubers from the bin may not, and probably will not result in the production of large potatoes next year. Many of these large potatoes were produced in hills that only produced one large potato with several smaller ones. Any growers who are interested in saving their own seed can get additional information by applying at the County Agent Office.

WANT ADS BRING RESULTS

Rheumatism Leaves You Forever

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer in this vicinity that if two bottles of Allenbur's, the sure conqueror of rheumatism, does not stop all agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenbur's has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless.

Allenbur's relieves at once. Immediately after you start to take it the good work begins. It searches out the uric acid deposits, dissolves the secretions, and drives rheumatic poison out of the body through the kidneys and bowels.

It's marvelous how quickly it works. Blessed relief often comes in two days, and even in cases where the suffering has been agonizing, the patient is free from pain in a few days.

We Know It Is Hard

To get the Christmas spirit so early, but rather than disappoint the boys in France, we now have on display our beautiful line of personal greeting cards and

October 31st

is the final date for mailing cards to the soldiers. Just a little more than a month and by the time that your order has been filled, it will really hurry you to get them mailed.

Embossed and Engraved

Yes, all the samples are embossed in colors and engraved. Your name engraved adds the personal touch. Send the boys over there a message on Christmas day—it will enlighten them. People who bought cards last year must bring their plates. This is going to be a card Christmas because it is cheaper and answers the purpose of an expensive gift. Presents will not be sent to soldiers this year because the government needs the ships to carry soldiers instead of heavy mail.

The Daily Republican

TO SAVE MEAT

A serving of meat or poultry once a day is enough. No family of five should buy any meat until it has bought 3 quarts of milk. Use all left overs. Make soups. When you buy meat get the lighter cuts which do not keep so well for shipment abroad. Remember there are parts like livers, hearts, tripe, sweetbreads and brains which should be used. Make a little meat go a long way. "Extend" its flavor. Other things such as vegetables, (especially potatoes) can be combined with meat.

This is the Stove Polish YOU Should Use

It's different from others because more care is taken in the making and the materials used are of higher grade.

Black Silk Stove Polish

Makes a brilliant, silky polish that does not rub off or dust off, and the shinelast four times as long as ordinary stove polish. Used on sample stoves and sold by hardware and grocery dealers.

All we ask is trial. Wash on your cook stove, your gas stove or your gas range. If you don't find it the best stove polish you ever used, your dealer is authorized to refund your money. Insist on Black Silk Stove Polish. Made in liquid or paste—one quality.

Black Silk Stove Polish Works
Sterling, Illinois

The Black Silk Air-Drying from Canned on stoves, registers, stove-pipes—prevents rusting. Use Black Silk Stove Polish for stoves, nickel or brass. It has no equal for use on automobiles.

A Shine in Every Drop

SUITS TO BE DISMISSED TWO MILLION OVERSEAS

Automatic Corporation Settles Attachments Which Were Filed Here

Attachment suits brought by Owen L. Carr and son Bruce and the Republican company against the Automatic Corporation, which attempted to sell stock here and locate an automobile factory in Rushville, have been settled and will be dismissed in the circuit court. Mr. Carr and son attached the local property of the concern when the office here was closed, alleging the corporation owed them \$155 on a garage bill. The Republican company later filed a similar suit, claiming \$45 due on an account. The costs in both cases were paid by the defendant. A similar suit by the Rushville Co-operative Telephone Co., has been dismissed and the costs paid.

This Is Disclosed in Correspondence Just Made Public

Washington, Oct. 24.—Embarkation of 2,008,931 American soldiers to participate in the war overseas was disclosed by correspondence between Secretary Baker and President Wilson given out at the white house last night at the same time that the President's reply to the German note was made public by the state department.

"I am sure that this will be a matter of deep gratification and assurance to the country," said the President, replying to a letter from Secretary Baker reporting on the number of men who have sailed from American ports to October 21.

NO REPLY EQUALS THE LAST

Deputy Sembad Comments on Wilson's Latest Note in the Heure

(By United Press.)

Paris, Oct. 24.—"No reply of the president equals this for vigorous and admiral frankness," declared Deputy Sembad, writing in the Heure today.

"It signifies to Germany that her destiny is in her own hands. Will she dethrone the kaiser or persist in imperialism. It is hers to choose. We will treat her accordingly."

LABOR SURVEY IS BEING COMPLETED

Statistics For Draft Board Advisor Gathered In Noble Township, First To Finish Task.

OTHERS ARE URGED TO HURRY

The labor survey in Rush county, which is being conducted under the direction of Marion Detrick, county agent, for the purpose of supplying information for the district selective service, board has been completed in Noble township and is partially finished in Rushville and Jackson townships. The county agent is hoping to complete the survey by the end of this week so that it will be possible to supply the district board with the desired statistics within the next few days.

The labor survey is being conducted by a special committee in each township. The committee has the names of all military registrants seeking deferred classification before the district board on account of agriculture. The committee recommends in each case whether it is advisable that the claim should be allowed as requested. These recommendations will be forwarded to the agricultural advisor of the district board, who will in recommending action by the district board, be guided not only by the report of the township committee but also by the condition of the labor supply in Rush county, as shown by the statistics to be supplied by the township committees.

SELLS INTEREST IN GARAGE.

Charles Caldwell has disposed of his interest in the Clark and Caldwell garage and auto sales agency to Joe Clark, his partner in the firm.

ONCE MORE IN BUSINESS.

Havre, Oct. 24.—As the whole of the province of western Flanders and part of eastern Flanders and Hainaut having been recovered from the Germans, the Belgian government has decided to establish its administrative departments in Bruges.

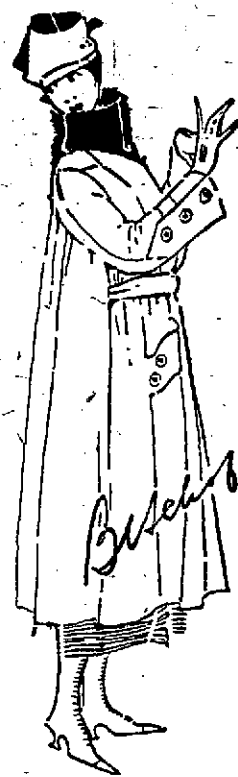

WOMEN FOR PARLIAMENT

London, Oct. 24.—The House of Commons adopted a resolution yesterday in favor of women sitting in Parliament. The resolution was passed by a majority of 249.

U. S. CARGO SHIP SUNK

Washington, Oct. 24.—Sinking of the American cargo steamship Lake Borgne off the coast of France without loss of life was announced yesterday by the Navy Department. The ship foundered after striking a rock. Ten officers and forty-eight enlisted men composed the crew and all were saved. The vessel was of 5,000 gross tonnage.

What our prices save you should be put into War Savings Stamps

A combination of merchandising foresightedness enables us to save you considerable money in your coat and suit buying this fall.

It's just this—we placed our orders very early with makers who had long ago laid in great reserve stocks of materials, both of us thus avoiding many of the heavy price advances that are now figured into the selling prices you are confronted with elsewhere.

Grant that elsewhere prices—because of their greater prevalence—are standards of value today. Ours, then, are better than standard.

Grant, too, that you are able and willing to buy on the basis of prevailing values. Good! Set your limit, buy here for less, and invest the difference in War Savings Stamps!

That will be good financing for the Stamps will earn interest; effective patriotism for the money put into Stamps means more punch in the fighting abroad, a quicker return and fewer casualties.

You will find another advantage here—style. Our makers are big—so big they have their own style-correspondents abroad and employ the highest paid designers in this country—men and women who create styles that serve as models for others to copy or adapt.

Considering the times our assortment is unusually extensive. We can please you in point of simplicity or gayety—we can meet the lean purse or the opulent.

RAILROAD MEN ARE GIVEN MORE LEEWAY

Modifications Of Recent Order Regarding Engagement In Politics Are Announced.

ARE APPROVED BY PRESIDENT

(By United Press.)

Washington, Oct. 23.—Employees of the national railway today were given more leeway to engage in politics. Modifications of the anti-political orders of the railroad administration, with the approval of President Wilson, as follows:

"Railway employees are given the liberty of engaging in politics insofar as their activities are not incompatible with their railroad duties."

Then new order specifies that "no officer, attorney or employee shall assume the conduct of any political campaign."

INJUNCTION EVIDENCE IS UNDER ADVISEMENT

Judge Sparks Conducts Hearing on I. & C. Suit To Prevent Completion 3rd Street Pavement

INJUNCTION NOW IN FORCE

(Evidence in the injunction suit of the Indianapolis and Cincinnati Traction company against the city of Rushville; George T. Miller of Lebanon, who has the contract to pave Third street, and Roy Evans, his foreman, was heard in the circuit court yesterday by Judge Will M. Sparks and taken under advisement.)

The traction company is seeking to prevent the completion of the Third street improvement from Morgan to Julian street on the theory that it can not comply with the plans and specifications, which call for a new rail, which the traction company alleges can not be obtained now on account of the great demand for steel for war purposes. A temporary injunction was granted the I. & C. several weeks ago to prevent the contractor from tearing up the street along its car tracks, and the hearing was to determine whether the injunction should be made permanent.

In the matter of the claim of Rue Mahin against Robert M. Gardner, administrator of the estate of Nancy A. Mahin, an agreement was made for an allowance of \$1,000 for the plaintiff and the costs were assessed against the estate.

CHRISTMAS SHOPPING IN STATE RESTRICTED

Methods Changed To Comply With Request Of State Council Of Defense.

EXTENDS OVER TWO MONTHS

Indianapolis, Ind., Oct. 24.—Christmas shopping in Indiana will be generally restricted this year, in compliance with the request of the state council of defense, according to reports reaching here from over the state today. The buying will be extended over a period of two months and merchants believe that the usual holiday rush will be eliminated.

Retail stores in practically every city of the state have agreed: Not to increase their working force over the average number of persons employed during the last year, during the holiday season.

Not to increase the normal working hours of their force during the holiday season over the normal hours observed throughout the year.

BIG SURPRISE TO MANY IN RUSHVILLE

People are surprised at the INSTANT action of simple buckthorn bark, glycerine, etc., as mixed in Adler's ONE SPOONFUL flushes the ENTIRE bowel tract so completely it relieves ANY CASE sour stomach, gas or constipation and prevents appendicitis. The INSTANT pleasant action of Adler's ONE SPOONFUL flushes both doctors and patients removes foul matter which poisons your stomach for months.

GREENFIELD, INDIANA

DANGER AFTER SPANISH INFLUENZA OR GRIPPE

How it Can Be Avoided and Treated. Simple Rules to Be Followed. No Occasion for Panic

No need of anyone being afraid of the after effects and slow recovery from Spanish Influenza, hard colds or Grippe, if they will use common sense and start in building up their health and strength the right way. The main thing is to get the blood rich, red, and pure, so it can carry life-giving oxygen and strength to every part of the body. Impure blood is the cause of so many slow recoveries and set-backs. Doctors say: "Get the blood right and the rest is easy, that nine-tenths of all sickness is due to lack of iron and phosphates; the healthy strong, vigorous man or woman's blood is always loaded with these two life-giving elements." Physicians also claim with fresh air and nourishing food nothing equals Phosphated Iron as a blood tonic and health builder. Phosphat-

ed Iron takes hold from the first dose. Results are seen and felt: strength returns, food digests, appetite picks up, sleep is restful, there is a color in the cheeks and a sparkle to the eye that only blood charged with iron and phosphates can give. It is the duty of everyone who has had Spanish Influenza, Grippe or a hard cold to build up their system with nature's tonic, Phosphated Iron. It sure is health protection. Safety first. The results will repay you many times. Give yourself a show. Special notice: To insure doctors and their patients getting the genuine Phosphated Iron we have put in capsules. Do not take pills or tablets. Insist on capsules. Pitman & Wilson, the Druggists, and leading Druggists everywhere.

For tired, aching or sweaty feet try a pair of the celebrated NO-AK Health Insoles.

FIVE REGISTRANTS HELD FOR SERVICE

Physical Examinations Result In One Rejection And Five Being Sent To Advisory Board.

126 QUESTIONNAIRES MAILED

The county army selection board continued mailing questionnaires today, 126 being sent to registrants 19 years of age and above thirty-seven. The legal advisory board urges that they be filled out as soon as possible and returned to the board. There are assistants to the legal board in every township who will assist in answering questions in the questionnaires.

The physical examinations yesterday resulted in five registrants being held for service, one rejected unconditionally, one accepted and sent to the medical advisory board, three rejected and sent to the medical advisory board and one placed in the remedial group and sent to the medical advisory board. One registrant called yesterday failed to report.

The board received the rulings in three cases from the district board today, Edgar and Edwin Barber, both of New Salem R. R. 1, being placed in class four, and Elbert J. May of Knightstown in class two. All were deferred on agricultural grounds. The board was informed of the induction of Donald Cook into the S. A. T. C. at Butler college and of Halbert Brown at Wabash college, Crawfordsville. An error was made Tuesday in showing Lennie Orme of Mannilla as being in class four. Instead it should have been class two.

TAX MUST BE PAID AT RATE OF \$18,000 DAY

Deputy Treasurer Frazee Says There Is No Need Of Taxpayer Coming To The Office

THEY MAY REMIT BY MAIL

Dr. J. B. Kinsinger, secretary of the city board of health, requests everyone with a bank account pay their taxes by mail so as to avoid congestion in the treasurer's office.

Counting today, the fall installment of county taxes must be paid at the rate of \$18,000 a day in order for all of the taxes falling due to be paid. The county treasurer has collected about \$100,000 and there remains about \$180,000 to be collected, with only ten days left of the fall tax paying period. Monday, November 4 will be the last opportunity to settle without having to pay an additional sum for being delinquent.

The epidemic of Spanish influenza is believed to be responsible for slowness with which taxes have been paid. It is thought by officials of the treasurer's office that people have hesitated about calling at the office for fear of meeting a large crowd of people.

Deputy Treasurer Charles A. Frazee points out that there is no need for any taxpayer being delinquent. All the taxpayer needs to do is to send a check for a sum of money equal to the spring installment, and a description of what they want to pay taxes on. The treasurer's office will do the rest, making unnecessary a call at the office. The taxpayer is requested to enclose a self-addressed stamped envelope and the receipt will be returned. Rushville people are requested not to call on Saturday, but to leave the day open to county people.

INITIATIVE IS RESUMED BY YANKEES

Continued from Page One
looked for north of the Valenciennes, there are no signs so far of any difficult defense beyond slender wire systems. The Germans are replying largely upon strong natural positions behind the canal and the flooded area between Douai and Valenciennes.

During the last four days, Germans have withdrawn about two miles every night after holding on all day, the British at daybreak occupying the abandoned ground and assuming the offensive.

EQUAL TO UNCONDITIONAL SURRENDER IF ACCEPTED

Continued from Page One

States and the allies can demand nothing but surrender.

In notifying Germany that its request had been transmitted to the allies, the president said he had suggested to them that if they are disposed to effect peace on the terms and principles already accepted by the present German authorities, their military advisers and those of the United States be asked, if they deem an armistice possible from a military point of view, to submit terms of an armistice that will insure the associated governments unrestricted power to enforce peace on the conditions accepted by Germany.

In view of military observers here such terms would include occupation of strategic points in Germany, demobilization of the German armies, the turning over of the German navy and the removal of the means of equipping military and naval forces.

At the same time that the President's reply to Germany was made public the White House gave out correspondence between Secretary Baker and President Wilson, showing that more than 2,000,000 American soldiers have embarked to participate in the war overseas.

Approval of the President's action was voiced everywhere among officials, who declared that the note demanded the surrender on which America and the allies insist, and at the same time held up to the German people a picture of their situation in a way likely to hasten their rise to throw out the kaiser and his war lords completely.

All Washington was surprised by the news that the note had been sent, cried in the streets by newsboys with extras shortly after 9 o'clock last night. During the afternoon it had been stated authoritatively that there would be no announcement of the President's decision before today and the understanding was that exchanges between Washington, London and Paris still were proceeding.

It was late in the evening when word that Secretary Lansing would see the newspaper men at 9 o'clock followed a conference between Mr. Lansing and Secretary Tumulty.

How the note is received by the people of allied countries will be awaited with the greatest interest. So far as the allied governments are concerned it is assumed that they have been informed and are in entire accord with the step taken.

DIES FROM INFLUENZA

Mrs. Francis Hamilton of Indianapolis, died at the home of her parents in Lafayette, Tuesday night after suffering a week from an attack the Spanish influenza. The deceased leaves a husband, sister, brother and her parents. Mrs. Hamilton's death comes as a great shock to her many friends and relatives in this city where she has visited many times.

2 TROOP TRAINS ON BIG 4

Last night about 9:30 o'clock there were two troop trains passed through this city on the Big Four railroad, coming from some southern camp and enroute to an eastern camp for embarkation to go overseas. In spite of the fact that the boys had been traveling for several miles, they were a happy crowd, singing and laughing as they passed through here.

DR. C. J. HARTON DIES

Dr. C. J. Harton died at his home in Rossville this morning, according to word received today by friends in Carthage, where he was a practicing physician about six years. No further details were received.

Justifiable Vanity

Every man likes to meet a friend who says: "That's a good-looking suit you have on!"

And yet the same man will deny the statement that he has a touch of vanity in his make up.

One likes to look young as long as possible and to feel that his neighbor thinks he looks young. His mirror is his father confessor.

This is what we call "justifiable vanity" in man—just as it is in woman.

In their style and carefully selected fabrics, their skillful tailoring and easy fit, Roberts-Wicks Clothes present a marked difference from any other ready-to-wear clothes.

Fall and Winter Suits and Overcoats \$25 to \$40.
